

## Simplify Fractions – “You Try”

For #1-8, reduce each fraction to simplest terms

1.  $\frac{15}{27}$

2.  $\frac{24}{60}$

3.  $\frac{36}{54}$

4.  $\frac{18}{36}$

5.  $\frac{49}{56}$

6.  $\frac{21}{35}$

7.  $\frac{40}{56}$

8.  $5\frac{12}{4}$

For #9-10, write the fraction in simplest terms your school library has the following sections

Category	#Books
Fiction	880
Nonfiction	650
Natural science	340
The Arts	390

9. What fraction of the books are Natural science?

10. What fraction of the books are Fiction and Nonfiction?
